D1: one law across precisions
measured log2 gradient error
predicted log2 gradient error (law fitted on f32 only)
bf16, ε=1
bf16, ε=0.01
bf16, ε=0.0001
f16, ε=1
f16, ε=0.01
f16, ε=0.0001
f32, ε=1
f32, ε=0.01
f32, ε=0.0001
D1: resolvability threshold
log2 r_rel at 50% error
log10 injection amplitude ε / std(f)
bf16 measured
bf16 predicted
f16 measured
f16 predicted
f32 measured
f32 predicted
